PROJECTS

BRC Client Portal | *React Router 7, TypeScript, Cloudflare Workers, Neon Postgres, Drizzle ORM*

- Built a private full-stack portal for managing clients, projects, phases, files, comments, material selections, and project data.
- Integrated Ably for real-time updates and SignWell for contract signing, with PostgreSQL persistence through Neon and Drizzle ORM.
- Prototyped in-app voice calling with LiveKit to evaluate real-time client communication.

Kiromilog | *Next.js 16, TypeScript, Neon Postgres, Drizzle ORM*

- Developed a social application for tracking anime and manga with lists, favorites, search, profiles, follows, messages, and avatar uploads.
- Integrated Neon Auth, Pusher, UploadThing, and the Jikan API for authentication, messaging, file uploads, and external catalog data.

Baltimore Re-Construction Website | *Astro, Tailwind CSS, Cloudflare*

- Created a responsive company website presenting services, service areas, and contact paths, deployed on Cloudflare and optimized for search.
