

Gabriel Lemes

Full-Stack Developer

Batatais, SP, Brazil

gabrielsilvarz@outlook.com | +55 16 99390-9231

Portfolio: gabriellemes.com | linkedin.com/in/gabrieldslemes | github.com/hisenenn

SUMMARY

Full-stack web developer working with TypeScript, React, Node.js, and PostgreSQL. Develop and maintain internal applications and client websites, from frontend and database implementation through deployment.

EXPERIENCE

Web Developer & Operations

Baltimore Re-Construction, LLC

Oct. 2025 – Present

Remote – Baltimore, MD, USA

- Build and maintain the **BRC Client Portal** for managing clients, projects, phases, files, and material selections, using React Router, TypeScript, and PostgreSQL.
- Implemented authentication and role-based permissions, and integrated electronic contract signing with SignWell and real-time updates with Ably into the portal.
- Maintain automated tests with node:test and Playwright and a GitHub Actions CI/CD workflow that deploys only after tests, type checks, and the build pass.
- Develop and maintain the company website in Astro, including content, technical SEO, Cloudflare deployments, and Google Business Profile management. The website has received inquiries from prospective customers and visits through Google Business Profile.
- Manage the company's Instagram account and support operations by organizing spreadsheets and project and client records.

Web Developer

Freelance

Apr. 2025 – Present

Remote – Brazil

- Build responsive websites and web applications with React and TypeScript, covering layout, frontend logic, and deployment.
- Work directly with clients to define scope, implement revisions, and deliver projects independently.

Software Development Intern

Trail Dev

Mar. 2025 – Jul. 2025

Batatais, SP, Brazil

- Rebuilt a Ruby on Rails website in Next.js for Pluralsign while preserving its existing pages and functionality.
- Updated the Strapi CMS and frontend of Inovoice's website.

TECHNICAL SKILLS

Programming: TypeScript, JavaScript, SQL

Frontend: React, Next.js, React Router, Astro, Tailwind CSS, HTML, CSS

Backend & Data: Node.js, PostgreSQL, Drizzle ORM, Zod, REST APIs

Cloud & Tools: Cloudflare Workers, Cloudflare Pages, Vercel, Git
