SUMMARY

Full-stack web developer focused on practical web systems: React interfaces, Node.js features, PostgreSQL data models, and Cloudflare deployments. Builds internal tools, company websites, and client projects primarily with TypeScript, React, and Node.js.

EDUCATION

Claretiano University Center

Undergraduate Degree in Systems Analysis and Development (Technologist)

Brazil

TECHNICAL SKILLS

Programming: TypeScript, JavaScript, SQL

Frontend: React, Next.js, React Router, Astro, Tailwind CSS, HTML, CSS

Backend & Data: Node.js, PostgreSQL, Neon, Drizzle ORM, Zod, REST APIs, Strapi

Cloud & Tools: Cloudflare Workers, Cloudflare Pages, Vercel, Git, Vite

AI-Assisted Development: OpenAI Codex, Claude Code, ChatGPT; implementation, debugging, code review, output validation

EXPERIENCE

Operations & Web Developer

Baltimore Re-Construction, LLC

Oct. 2025 – Present

Remote – Baltimore, MD, USA

- Build and maintain BRC's internal web application for managing clients, projects, files, and communication.
- Maintain the public company website and Cloudflare deployments, including content updates, technical SEO, and marketing pages.
- Keep operational spreadsheets and internal processes organized around project and client data.

Web Developer

Freelance

Apr. 2025 – Present

Remote – Brazil

- Build responsive websites and small web applications in React and TypeScript, covering layout, frontend logic, and deployment.
- Work directly with clients to define scope, implement revisions, and deliver finished projects independently.

Software Development Intern

Trail Dev

Mar. 2025 – Jul. 2025

Batatais, SP, Brazil

- Rebuilt a Ruby on Rails website in Next.js for Pluralsign, preserving its existing pages and functionality.
- Made CMS and frontend updates to Inovaice's Strapi-based website.

PROJECTS

BRC Client Portal | React Router 7, TypeScript, Cloudflare Workers, Neon Postgres, Drizzle ORM

- Built an internal application for managing clients, projects, phases, files, comments, material selections, and communication.
- Added real-time updates with Ably, contract signing with SignWell, a LiveKit voice-call prototype, and PostgreSQL storage through Neon and Drizzle ORM.

Kiromilog | Next.js 16, TypeScript, Neon Postgres, Drizzle ORM

- Developed a social anime and manga tracker with lists, favorites, search, profiles, follows, messages, avatar uploads, Neon Auth, Pusher, UploadThing, and the Jikan API.

Baltimore Re-Construction Website | Astro, Tailwind CSS, Cloudflare

- Created a responsive company website presenting services, coverage areas, and contact options, deployed on Cloudflare with technical SEO improvements.

Ana Zabala Portfolio | Next.js, TypeScript, Tailwind CSS, Vercel

- Built a portfolio website for an independent architect, focusing on project presentation, responsive layouts, and a direct contact path.
