Languages: Portuguese (Native), English (Advanced)

SUMMARY

I am a full-stack web developer working mainly with TypeScript, React, Node.js, and PostgreSQL. My recent work includes an internal client portal, company websites, and small projects for clients. I usually handle the work from development through revisions and deployment.

EDUCATION

Claretiano University Center

Undergraduate Degree in Systems Analysis and Development (Technologist)

Brazil

TECHNICAL SKILLS

Programming: TypeScript, JavaScript, SQL

Frontend: React, Next.js, React Router, Astro, Tailwind CSS, HTML, CSS

Backend & Data: Node.js, PostgreSQL, Neon, Drizzle ORM, Zod, REST APIs, Strapi

Cloud & Tools: Cloudflare Workers, Cloudflare Pages, Vercel, Git, Vite

AI Tools: OpenAI Codex, Claude Code, and ChatGPT for coding support, debugging, and code review

EXPERIENCE

Operations & Web Developer

Baltimore Re-Construction, LLC

Oct. 2025 – Present

Remote – Baltimore, MD, USA

- I build and maintain BRC's internal web application for managing clients, projects, files, and communication.
- I maintain the company website, update its content and technical SEO, manage Cloudflare deployments, and look after its Google Business Profile.
- I keep the spreadsheets and project records used by the team organized.

Web Developer

Freelance

Apr. 2025 – Present

Remote – Brazil

- I build responsive websites and small web applications in React and TypeScript, from layout and frontend logic through deployment.
- I work directly with clients to agree on the scope, make revisions, and deliver each project.

Software Development Intern

Trail Dev

Mar. 2025 – Jul. 2025

Batatais, SP, Brazil

- I rebuilt a Ruby on Rails website in Next.js for Pluralsign while preserving its existing pages and functionality.
- I made CMS and frontend updates to Inovaice's Strapi-based website.

PROJECTS

BRC Client Portal | *React Router 7, TypeScript, Cloudflare Workers, Neon Postgres, Drizzle ORM*

- I built an internal application for managing clients, projects, phases, files, comments, material selections, and communication.
- I added real-time updates with Ably, contract signing with SignWell, a LiveKit voice-call prototype, and PostgreSQL storage through Neon and Drizzle ORM.

Kiromilog | *Next.js 16, TypeScript, Neon Postgres, Drizzle ORM*

- I built a social anime and manga tracker with lists, favorites, search, profiles, follows, messages, avatar uploads, Neon Auth, Pusher, UploadThing, and the Jikan API.

Baltimore Re-Construction Website | *Astro, Tailwind CSS, Cloudflare*

- I built the company website to present its services, coverage areas, and contact options, then deployed it on Cloudflare and improved its technical SEO.

Ana Zabala Portfolio | *Next.js, TypeScript, Tailwind CSS, Vercel*

- I built a responsive portfolio for an independent architect to present her work and make it easy for potential clients to get in touch.
